Notes

This report is being used to supplement the property information annually submitted to the Department of Risk Management on the Property Certification form. The information included in this report, along with the information submitted to Risk Management, is mandated by Act 2014-414.

Act 2014-414 required the State Department of Finance to "develop and maintain an automated inventory of all facilities and lands owned, leased, rented, or otherwise occupied or maintained by any agency of the state." Section 1(a)(4) of this Act states the following:

"The Alabama Commission on Higher Education and the Alabama Community College System, respectively, shall develop and maintain a facilities inventory, in the manner prescribed by the State Department of Finance, of all state university and community college facilities and shall make the data available in a format acceptable to the State Department of Finance."

This report includes building space that is leased or owned by ACCS institutions that was not included on the most recently submitted Risk Management Property Certification form. This includes all property leased or owned outside of the State of Alabama. The exception to this is if an institution is leasing property from another Alabama public college or university the space is not included in this report.
