Articulation Agreement Identifier: MAS 111 (2009-1) Identifier is the postsecondary course prefix followed by Plan-of-Instruction version number (e.g.; INT 100 (2007-1)).

Applicable CIP code(s): 46.0101

Postsecondary course prefix, number, and title: MAS 111 Masonry Fundamentals

Secondary Education course(s) title and number: 430115/410010 - Introduction to Masonry

Effective date: Fall Semester 2011.

Course Content Analysis (all postsecondary course objectives must be sufficiently addressed in the secondary courses):

Notes:
1. Skills and knowledge contained in the postsecondary course objectives must be present in the corresponding secondary objectives for a “match” to occur.
2. Postsecondary and Secondary objectives must reflect similar content and performance levels before the course articulation agreement will be recommended to the TEDAC Oversight Committee.
3. More than one Secondary course may be used in order to articulate to a Postsecondary course.
Module A SAFETY

PROFESSIONAL COMPETENCIES
A1.0 Use safe work practices in the shop and on the work site.
A2.0 Value shop and work site safety.

PERFORMANCE OBJECTIVES
A1.1 Demonstrate the safe use of various masonry tools, related equipment, and protective attire.
A2.1 This competency is measured throughout the course.

LEARNING OBJECTIVES
A1.1.1 Describe the safe use of various masonry tools.
A1.1.2 Describe how to safely use various pieces of equipment.
A1.1.3 Explain the appropriate wear of personal protective equipment.
A1.1.4 Describe the dangers of horseplay in the shop or on the work site.
A1.1.5 Explain various advantages of keeping a clean shop.
A1.1.6 Identify an MSDS and explain the contents.

Module B TOOL AND EQUIPMENT USE

PROFESSIONAL COMPETENCIES
B1.0 Use tools and equipment appropriately.

PERFORMANCE OBJECTIVES
B1.1 Use tools and equipment appropriately.

Introduction to Masonry, Unit 1-2, Safety Content Standard
1. Apply safety rules, regulations, and procedures for masonry construction.
2. Identify rules and regulations related to masonry construction.

Learning Objectives
1. Explain the role that safety plays on the job-site.
2. Explain the appropriate safety precautions to take around common job-site hazards.
3. Demonstrate the use and care of appropriate personal protective equipment (PPE)
4. Properly don and remove personal protective equipment (safety goggles, hearing protection, hard hat, and personal fall protection).
5. Explain the importance of Hazard Communications (HazCom) and material safety data sheets (MSDSs).
6. Describe fire prevention and firefighting techniques.
7. Define safe work procedures to use around electrical hazards.
8. Demonstrate correct selection and use of electrical and hand tools.

Introduction to Masonry, Unit 3-4, Orientation Content Standard
3. Describe skills needed to work as a mason.
4. Identify tools and equipment used in performing masonry work.

Module C ORIENTATION TO MASONRY

PROFESSIONAL COMPETENCIES
C1.0 Describe the history of masonry.

PERFORMANCE OBJECTIVES
C1.1 This competency is measured cognitively.

LEARNING OBJECTIVES
C1.1.1 Describe the early beginnings of masonry.
C1.1.2 Explain how the masonry trade has developed over time.
C1.1.3 Explain career ladders and advancement possibilities in masonry work.
C1.1.4 Describe the process for producing brick and block.

Introduction to Masonry, Unit 3-4, Orientation

Content Standard
3. Describe skills needed to work as a mason.
4. Identify tools and equipment used in performing masonry work.

Learning Objectives
1. Explain the definition of a mason.
2. Explain the advancement opportunities in masonry.
3. Explain the importance of communication skills in masonry.
4. Define masonry units.
5. Explain fractions and how they relate to reading a rule.
6. Explain working conditions for a mason.
7. Describe the tools of masonry
8. Demonstrate the care and use of all the masonry tools and equipment.
### Module D  MIXING AND SPREADING MORTAR

**PROFESSIONAL COMPETENCIES**

---

**Introduction to Masonry, Unit 9-11, Jointing Content Standard**

9. Demonstrate basic block and brick construction techniques.

10. Use basic bricklaying procedures, including mixing of mortar, laying a mortar bed for block and brick, and laying bricks with head joints.

11. Identify composition, reinforcement, and forms used for concrete construction.

**Learning Objectives**

1. Lay simple block and brick projects.
2. Mix mortar with a hoe.
3. Spread a bed joint for brick.
4. Spread a bed joint for block.
5. Put on a head joint for brick.
6. Put on a head joint for block.
7. Explain concrete, expansion joints and reinforcement.
