- History and Organizational Structure

L.T.S. is a services-oriented firm specializing in local and wide area network solutions. Our staff has over 200 years of combined experience in designing and implementing both large and small scale networks for government, education and commercial clients. We provide all the products and services necessary to build high-performance networks and integrated Information Systems.

L.T.S. offers a wide range of network and computer system design and implementation services that can be tailored to meet your specific needs. We provide either complete turnkey solutions or only assist you in

the aspects of your project where you need help. An overview of some of the services we offer are provided in the following:

System Planning and Design

L.T.S. engineers will help you refine and document your system requirements and then work closely with you to produce a comprehensive design to completely satisfy your requirements. Our design packages include detailed descriptions and drawings of the system, complete bill of materials, specifications for all components and a project plan for completion.

Structured Cabling System Design and Installation

L.T.S. cable designers and installers are registered by (BICSI) Building Industry Consulting Services International. L.T.S. is a Certified Installer (CI) for the Leviton System[®]. Leviton is a leading manufacturer of high-quality structured cabling system components and offers up to a 25 year warranty on all parts and labor.

Network Hardware Staging, Configuration and Installation

L.T.S. will assist in the ordering, tracking, inventory control, assembly, configuration, site delivery and installation of network and computer hardware from all major manufacturers. Our facility is equipped to handle multiple projects simultaneously. L.T.S. is a Cisco Systems[®] Premier Certified Partner.

Integrated Voice, Video and Data Systems

L.T.S. features solutions using Cisco Systems[®]00 Architecture for Voice, Video and Integrated Data (AVVID). Cisco AVVID solutions prepare your company to compete in the New World economy. By converging data, voice and video onto a single IP infrastructure you can reduce total cost of ownership. Then organizations are able to take advantage of IP-enabled applications for enhanced productivity.

Computer System Application Installation and Configuration

Our technicians are experienced in the installation and configuration of Microsoft products such as the latest Windows Server, SQL, and Exchange System Softwares. We are also familiar in the installation and configuration of numerous Higher Educational applications and various Software Technology Incorporated products.

System Troubleshooting and Performance Tuning

L.T.S. technicians and engineers are trained and equipped to pinpoint network malfunctions quickly. This is important when your system is down and your employees are idle. We use analysis tools with expert systems software to decode and recommend solutions to performance problems. We can also provide proactive network checkups to baseline performance before and after new application deployment and identify any potential problems as your network traffic increases.

Web-based Surveillance—Physical Security

Once you've made the investment to install the network infrastructure, use it for security monitoring with a network connected camera. Using the internet or intranet you can remotely activate and view any camera by IP address from anywhere in the world. Use it for live website or monitor the entrance to your building. The possibilities are just beginning.

Network Maintenance and Upgrade

IT.S. offers network maintenance contracts to enhance your workflow and provide the technical expertise you need at a minimal cost. We understand day to day computer operational costs can be expensive. Our philosophy is to first understand your technical support requirements and then identify the correct personnel from our staff of experienced technicians to provide you with the technical support you need. We will perform maintenance on structured cabling systems and active components of your network to ensure that everything is operating at the optimal level. We also will perform network equipment firmware revisions and necessary configuration changes after business hours to ensure you don't experience network downtime. Our goal is to provide complete system support. From troubleshooting basic wiring problems to working with other vendors to identify and resolve application and network interoperability issues. IT.S. is your one stop shopping for technical support.

Quincy Minor, BECIS, EMBA, President/COO of Information Transport Solutions, Inc.

Quincy P. Minor brings 20 years of Leadership experience in the IT Industry in service operations, profit-loss management and sales. He is an accomplished technology leader with the ability to define, implement, and lead the execution of technical strategies that strengthen organizational performance. Quincy earned his bachelor's degree in Computer Information Systems from Alabama State University and his EMBA from Auburn University. His vision of the future and his ability to keep our organization operating efficiently has contributed greatly to Information Transport Solutions' success. Mr. Minor is a dynamic and inspiring leader who brings his incredible intensity, passion, and fun to all that he does.

Subcontractors and Project Management

Subcontractors may be used for this project to enhance our ability to provide Professional Services such as outside plant installation. IT.S., Inc. employs a highly skilled group of telecommunications and networking professionals. These professionals include technical sales engineers, project managers, network engineers, customer service technicians and customer service representatives. We feel our project management skills set us apart from the competition. Project Managers are assigned to every project to streamline operations and provide a single point of contact for the client. We will procure all required equipment and materials, install them, and configure the system to meet pre-determined objectives.

Installation Standards

IT.S. project managers ensure that a rigorous list of company and industry installation standards (i.e., BECIS, TIA/EIA, Vendor-sponsored) are met and/or exceeded on every project.

3.22 Product and Services Delivery Overview

Products ordered from ITS, Inc. may be delivered to any location within the State of Alabama. We primarily utilize the manufacturer's distribution channels to fulfill product orders and follow-up to insure delivery is performed on time. We are fully responsible for the delivery of equipment and will resolve any issues with equipment not arriving in the expected timeframe. If necessary, we can consolidate and stage large equipment orders until they are actually required to be on the institution's site(s).

We have support personnel located in every region of Alabama. We can provide a variety of services in addition to basic equipment procurement. These services include, but are not limited to, the following:

- LAN/WAN planning, procurement, implementation and support
- Implementation of Cisco IP Communications product solutions that include Voice over IP (VoIP), IP Telephony systems, voice messaging, unified messaging and rich media conferencing.
- Cisco Smartnet maintenance registration and administration, including coordination of product returns and replacement shipping.
- Planning, implementation and documentation of structured network cabling systems.
- Installation, configuration and periodic reporting of system security status in conjunction with the Lightspeed Systems content filtering product line.
- Planning, implementation, staging, configuration and on-site setup of fully integrated classroom video conferencing systems.
- Coordination of activities involving multiple entities to insure the proposed solutions will meet the customers' requirements.

Our main Network Operations Center is located in Wetumpka, AL. We also have a fully staffed Network Operations Center in Mobile, AL and another NOC located in Montgomery AL RSA Building. All of our advanced services offerings will be fulfilled by personnel from one of these two locations. The following map indicates where our remote technicians are located. In addition to these remote technicians, we can dispatch other technicians from our Wetumpka office in Etowah County or from the Mobile office to any location within the State requiring our support services.

3.2.3 Reporting

As a minimum, we will provide the purchase agreement utilization information in the sample format provided in the RFB. Below is an example of our vision for this report but we can and will provide quarterly utilization reports in virtually any format required by the Alabama College System (ACS). If the contract is awarded to ITS, we will commit to implement and provide electronic delivery of reports and access to a web-based reporting tool for use only by authorized ACS personnel within the first three months of the contract.

EXAMPLE

Alabama College System Joint Purchasing Agreement
Contract# ACS2019-01
Quarterly Usage Report
Period: 1st Quarter, 1 January 2019 – 31 March 2019

Procuring Entity	Category	Total
Alabama Southern Community College	Cisco Equipment Order	\$40,000.00
Alabama A&M University	Netapp Renewal Order	\$8,500.00
JF Ingram State Technical College	Cisco Equipment Order	\$23,000.00
University of Alabama	Clariantouch Order	\$30,000.00
University of Alabama in Huntsville	Palo Alto Order	\$23,000.00

3.24 Electronic Commerce

ITS will maintain a website with access to the required items. ITS will also make the link to that website available on our company site, www.its-networks.com. If a contract is awarded to ITS, we will commit to implement a website that contains the following enhanced capabilities:

- Help pages to explain the procurement processes and approvals required to initiate a purchase from ITS under this purchasing agreement.
- Links to manufacturers' product information to assist in product selection.
- Phone numbers and email links to request assistance with system design and product selection.

3.25 Breadth of Offering

We propose to offer product lines in three categories. For the Networking Equipment category, we are offering the entire product line for Cisco Systems, Quicklert(Telephony), and Lightspeed Systems (content filtering & classroom software). We are also including a portion of the Video Insight offering (Network Video Surveillance) In the Video Conferencing Equipment category, we are offering the entire Cisco Telepresence product line. In the Storage category, we are including Netapp SAN solutions. In addition, we will provide staging, asset tagging, configuration, installation, training and support services for all networking equipment, video conferencing equipment, firewall services and network cabling in addition to providing PC, Server and Network Managed Services.

All equipment will be new, unopened and in the manufacturer's packaging. All required software and firmware licensing will be included in the systems. Under no circumstances will we assist in circumventing the manufacturer's software licensing policies.

We have attached the product listings and pricing for Cisco Systems, Netapp, Arris, Inc., Quicklert, Smart Technologies, Viewsonic, Elmo, Liebert, Microsoft, VMware, HPE-Aruba, and Lightspeed Systems. In addition, pricing for our service offerings are provided that will enable participating institutions to purchase equipment and services that will effectively provide a turnkey solution. We believe we add value by providing more than just products for those institutions that require assistance in implementation.

3.26 Primary Account Representative

The primary account representative for this proposal will be Tony Helton, located in our Wetumpka, AL office. The marketing supervisor will be Steve Meany, also located in our Montgomery RSA office.

3.27 References

ITS is an experienced provider of a wide range of products and services for the educational environment. Our business was started in the educational market. We support over 70 K-12 school systems in the state of Alabama. We are currently a Cisco reseller on the Alabama Department of Education Joint Purchasing Agreement. See the "References" tab of this bid for a list of a complete customer reference list.

3.28 Pricing Level and Guarantee

We have included the pricing levels in the attached spreadsheets. We are offering the entire Cisco Systems product line of networking hardware and software at a 33% discount off of the manufacturer's list price. Cisco Systems Smartnet maintenance is offered at 20% off the manufacturer's list price. In addition, we are offering the Lightspeed Content Filtering & Classroom Software with list prices and discounts. QuickNet is offered at 10% off List for Software. We are offering Smart Technologies, Viewsonic, Elmo, Netapp, Cleartouch at a standard education price. We are also offering Liebert, VMware, Extron, and Industry Weapons, with standard discounts noted in its tab respectively. In addition to the equipment, we are also offering equipment staging, installation and configuration services which are also included in the attached pricing sheets.

All of the discount levels provided will be the minimum discounts offered throughout the term of the contract. However, manufacturer changes in list price may result in price changes without notice. Upon request, ITS will provide Manufacturer contact information to validate baseline pricing.

3.29 Oral Presentation and Demonstration

ITS agrees to provide the Evaluation Committee the opportunity to meet with and question the proposed primary account representative.

3.30 Equipment and Services Schedule

The Equipment and Services Schedule (ESS) for our product and service submissions are included as a tab to this bid opportunity. Our ESS includes the discounts described herein.

3.31 Scope of Work

We agree to deliver the products or services requested through a valid purchase order from all approved procuring entities of this contract. We also understand and support efforts for more competitive discounts where applicable.

3.32 Title Passage

ITS understands that title of equipment will pass to the procuring entity upon acceptance.

3.33 Quantity Guarantee

ITS understands this agreement is not exclusive and procuring entities may procure products from other vendors.

3.34 Order of Precedence

ITS has read, understands and agrees with the order of precedence for resolving conflicts.

3.35 Payment Provisions

ITS has read, understands and agrees with the payment provisions described in the RFP.

3.36 Shipment and Risk of Loss

ITS understands that we are responsible for freight charges and will assist with the settlement claims of damaged goods. We understand the title passes at the time the goods reach their destination and we retain title and control until delivered and accepted by the buyer. ITS will only agree to pay the expense of returned items when the return is a result of incorrect shipment of procured products by ITS or its distribution partners. All shipments of products will be by UPS or FedEx Ground Service. Any request for a more expeditious shipment will be at the expense of the buyer.

3.37 Warranties

All products will be covered by the manufacturer's warranty upon delivery.

3.38 Price Guarantees

ITS agrees the procuring entity will pay the lower of the prices contained in our Equipment and Services Schedule. Any additional discounts will be negotiated between the procuring entity and ITS.

3.39 Technical Support

ITS maintains a toll-free technical information assistance line. The toll-free number for this service is 866-512-8324.

3.40 Product Delivery

ITS agrees to deliver products to the procuring entity within 30 days of receipt of a valid purchase order.

3.41 Impracticability of Performance

ITS agrees to act prudently and promptly to take steps to avoid being excused from performance for any reason.

3.42 Records and Audit

ITS agrees to maintain detailed records pertaining to each purchase order for a period of three years from the date of purchase order acceptance. We will make these records available upon request by the procuring entity or appropriate governmental authorities.

3.43 Use of Subcontractors

ITS understands that we are solely responsible for the performance of this agreement. All known subcontractors will be identified in the applicable addendum.

3.44 Indemnification

ITS has read, understands and agrees with the indemnification terms outlined.

3.45 Website Maintenance

ITS will maintain and support an Internet website for access to our product lists, product descriptions, product specifications in accordance with instructions provided by this contract.

3.46 Ethics

ITS warrants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services required under this agreement. We also understand the System employees are not allowed to accept personal gifts or gratuities.

3.47 Replacement Parts

All use of refurbished replacement parts will be coordinated with the procuring entity,

3.48 FCC Certification

ITS agrees that all hardware supplied meets all applicable FCC Certifications

3.49 Site Preparation

ITS has read, understands and agrees with the site preparation section.

3.50 Assignment

ITS will not assign nor transfer any interest in this agreement or assign any claims for money due or to become due under this agreement without prior written approval from procuring entity.

3.51 Survival

ITS has read, understands and agrees with the survival section

3.52 Lease Agreements

ITS understands the procuring entity may agree to lease equipment.

3.53 Vendor Disclosure Statement

ITS has provided the Vendor Disclosure Statement in the bid. Please see the Vendor Disclosure Statement Tab.

Company Information

Organizational Structure

Information Transport Solutions, Inc. (ITS) is a full service provider of technology solutions specializing in local and wide area network solutions. Our staff has over 200 years of combined experience in designing and implementing both large and small scale networks for government, education and commercial clients. We provide all the products and services necessary to build high-performance networks and integrated Information Systems. In particular, Information Transport Solutions, Inc. has led efforts to create long term strategies for K-12 school districts, utilizing ERATE as well as grants and other funding options. Our intent is to help schools reach their technology goals as part of a greater effort to provide our school systems in the Southeast with the tools to educate students effectively so that they can compete in our Global Economy. (*ACCESS Alabama, 21st Century Classroom Total Solutions, and Professional Learning*)

Information Transport Solutions, Inc. offers a wide range of network and computer system designs and implementation services that can be tailored to meet our customer's specific needs. We provide complete turnkey solutions or assist customers in the aspects of the specific project where they need our help. Overviews of some of the services offered are provided in the following:

System Planning and Design

Information Transport Solutions, Inc. engineers will help customers refine and document their system requirements while working closely with them to produce a comprehensive design to completely satisfy requirements. Our design packages include detailed descriptions and drawings of the system, complete bill of materials, specifications for all components and a project plan for completion.

Structured Cabling System Design and Installation

Information Transport Solutions, Inc. cable designers and installers are registered by (BICSI) Building Industry Consulting Services International. With an in-house RCDD® Professional, we also provide consulting, design and implementation of Structured Cabling, including Customer Owned Outside Plant.

Solutions Management - Network Hardware Staging, Configuration and Installation

Information Transport Solutions, Inc. will assist in the ordering, tracking, inventory control, assembly, configuration, site delivery and installation of network and computer hardware from all major manufacturers. Our facility is equipped to handle multiple projects simultaneously. Information Transport Solutions, Inc. is a Cisco Systems® Premier Certified Partner. Our Solutions Management Division provides complete management of each service implementation or project from the time the Purchase Order is received until the customer sign-off is completed. Solutions Management provides a single point of contact for the customer throughout this process, ensuring all customer needs are properly addressed.

INFORMATION *Transport*
SOLUTIONS, Inc.

A  **Uniti** Company

Integrated Voice, Video and Data Systems

Information Transport Solutions, Inc. features solutions using Cisco Systems'® Architecture for Voice, Video and Integrated Data (AVVID). Cisco AVVID solutions prepare school systems and businesses to compete in the New World economy. By converging data, voice and video onto a single IP infrastructure, an organization can reduce total cost of ownership, which allows organizations to take advantage of IP-enabled applications for enhanced productivity and safety. Cisco TelePresence Video Conferencing product line is our chosen video solution. With our Network and Video experience, we are able to successfully integrate these components, ensuring the customer receives a total solution.

Computer System Application Installation and Configuration

Information Transport Solutions, Inc. technicians are experienced in the installation and configuration of Microsoft products such as the Windows 2008 System, Exchange Server, and SQL Server. We are also familiar in the installation and configuration of numerous higher educational applications and various Software Technology Incorporated products.

Managed Network Services, System Troubleshooting and Performance Tuning

Information Transport Solutions, Inc. has instituted a Network Operations Center (NOC) comprised of the latest technologies and a dedicated staff of highly trained technicians and engineers that are available to support all ongoing technical problems customers may encounter. This is important when a system is down and employees are idle or classes are affected adversely. Information Transport Solutions, Inc. uses analysis tools and expert systems software to decode and recommend solutions to performance problems. We also provide proactive network check-ups to baseline performance before and after new application deployment and identify any potential problems as network traffic increases. Managed Services contracts for Networks, Servers & even PCs are available and managed from the NOC.

Subcontractors and Solutions Management

It is not our policy to use subcontractors in the implementation of network infrastructure and value added products and services. Information Transport Solutions, Inc. employs a highly skilled group of telecommunications and networking professionals. These professionals include technical sales engineers, project managers, network engineers, customer service technicians and customer service representatives. We feel that our project management skills help set us apart from industry competitors. Our Solutions Management Division assigns a Project Manager to every project to streamline operations and provide a single point of contact for the customer. We procure all required equipment and materials, install them, and configure the system to meet pre-determined objectives set by the customer. Information Transport Solutions, Inc. Project Managers ensure that a rigorous list of company and industry installation standards (i.e., BICSI, TIA/EIA, and Vendor-sponsored) are met and/or exceeded on every project.

A Unifi Company

Information Transport Solution, Inc. Executive Team

Quincy Minor - President & CEO

Quincy P. Minor brings 20 years of Leadership experience in the IT Industry in service operations, profit-loss management and sales. He is an accomplished technology leader with the ability to define, implement, and lead the execution of technical strategies that strengthen organizational performance. Quincy earned his bachelor's degree in Computer Information Systems from Alabama State University and his EMBA from Auburn University. His vision of the future and his ability to keep our organization operating efficiently has contributed greatly to Information Transport Solutions success. Mr. Minor is a dynamic and inspiring leader who brings his incredible intensity, passion, and fun to all that he does.

Steve Meany - COO

Steve Meany has extensive IT experience in multiple markets. During his professional career, Steve has held various leadership roles managing local and global operations at EDS and Cisco Systems. His experience in commercial, federal, state, local and education markets gives him the insight needed to understand customer issues and concerns. He has the management and technical skills necessary to be a visionary for ITS, and his focus is on customer service and delivering technology with integrity. Steve is a graduate of Auburn University Montgomery.

Jeff Drury - CFO

Jeff Drury has over 30 years of accounting and financial experience. He has a BS in Accounting from Troy State University and his experience includes Corporate, Cost, and Governmental accounting as well as internal auditing. Andy Ragan - Vice President, IT Architecture

As Vice President of IT Architecture, Andy Ragan is responsible for the management and execution of all project installations. With over 20 years of "hands-on" installation experience, Andy oversees a team of installers that ensure all projects are correctly implemented to the customer's satisfaction. Andy's knowledge on Structured Cabling and Connectivity, Low-Voltage Systems and Network Infrastructure, coupled with his management and leadership abilities, allow him to train and develop higher level technicians and installers. Andy holds several industry specific certifications and is a registered Building Industry Consulting Service International (BICSI) Technician.

Barry Franklin - Vice President, Gulf Coast Operations

As Vice President in charge of the Gulf Coast Operations, Barry is responsible for the management and execution of all projects in the Mobile and FL Gulf Coast area. His area of technical expertise include VoIP and video teleconferencing. He is a Cisco Certified Network Professional and a Cisco Certified Design Professional. Barry has been with ITS for over 15 years coming to the company after serving eight years in the Air Force. He has over 25 years of hands on experience designing, installing, and maintaining Local and Wide Area Networks. His knowledge of all facets of operations, including network support, IT Architecture, and managing Network Operations Centers, make him a valuable asset in designing solutions and providing service.

Justin Wasden - Vice President, Data Center and Operations

As Vice President in charge of Data Center and Operations, Justin is responsible for management of the ITS data center infrastructure and the Network Operations Centers (NOC) in Montgomery, Wetumpka, and Mobile. Justin earned a Bachelor's Degree in Computer Science from Troy University. He has over 15 years of experience designing, installing, and managing enterprise class technology initiatives to include data center networking, Active Directory, VMware, WAN/LAN/Wireless infrastructure, Cisco VoIP, and SAN storage. His technical certifications include Cisco CCIE (Data Center), Cisco CCNP, VMware VCP 6, Microsoft MCSA 2012-MQ, and NetApp NCTE.

Becky Richardson - Vice President, Human Resources

As Vice President of Human Resources, Becky Richardson is responsible for all HR functions, including employee training and development. She earned her bachelor's degree in Human Resource Management from Auburn University at Montgomery. Becky joined Information Transport Solutions, Inc. in September 2007 as the HR Director. She has over 19 years of experience in human resources. Prior to joining ITS, Inc., Becky had served in human resource management positions in various industries, such as healthcare and manufacturing. She also has experience in human resource development.

Tony Helton - Vice President, Sales

As Vice President over Sales, Tony Helton is responsible for overseeing day-to-day activities that create a focused, positive environment built around company strategies and processes. With over 10 years of "hands-on" installation and sales experience, Tony is responsible for keeping a customer-oriented focus to provide seamless turnkey solutions. He holds a Bachelors of Business Information Systems degree from Faulkner University.

Frank Yarnell - Vice President, Project Management

Frank Yarnell brings 20 years of engineering experience and leadership from military and corporate disciplines to work every day. Frank supervises the project management office ensuring attention to detail and customer interaction are priorities, while delivering the ITS standard on time and under budget. Frank also manages the Logistics department bringing detail oriented accuracy to our purchasing & distribution. Frank engages our partners in negotiations for services providing solutions to our Sales team, while working with design and technology to ensure the most effective solutions are available to our customers. Frank maintains his Security Engineer certifications from Cisco, SANS, and ISC2.

Rodney Maddox - Vice President, Wetumpka Operations

Rodney is in charge of the Wetumpka Operations and responsible for the management of the engineers, and execution of projects out of the Wetumpka office. He is a network engineer with over 15 years of experience in the Information Technology field with technical experience with the installation and support of Local and Wide Area Networks. Before coming to work at ITS, Rodney served over 8 years in the USAF as a communication-computer systems controller. He holds an Associate from the Community College of the Air Force and a Bachelor's from Troy University. He holds a number of industry certifications to include his Cisco Certified Network Professional and Cisco Certified Design Professional.

Brian Sims - Vice President, Technology

Brian has over 20 years of "hands-on" experience in the IT industry. As Vice President of Technology, he is responsible for designing, building and testing network solutions for customers across the US. Some of Brian's high-level tasks could include identifying emerging information technologies to be analyzed, assimilated and integrated within the organization. He has in-depth expertise in Cisco VoIP, Cisco Security, virtualization, data center, physical security, service provider and core routing technology areas. He is proficient in client consultancy in pre/post sales engagements, design development, solution architect and deployment, systems engineering and customer support management.

Attention: Joint Purchase Agreement
Administrator

Dear Sirs/Madams:

**Subject: Alabama Community College System & Alabama Higher Education Joint
Purchasing Agreement Bid #: ACCS-2019-01**

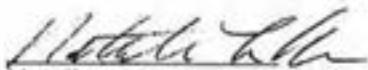

SMART Technologies ULC ("SMART Canada") is a corporation formed by Amalgamation under the laws of the Province of Alberta, Canada on August 28, 2007, with a registered office in Calgary, Alberta, Canada. SMART Canada is the designer and vendor of the products submitted for tender under this B.d. The products submitted for tender under this Bid are produced by SMART Canada's partner manufacturers including: Celestica (Romania) S.R.L., KorteK Corporation, and Shenzhen KTC Technology Group. SMART Canada's partner manufacturers are certified to ISO 9001:2015 standards (Associated Certificates of Registration attached). SMART Canada is itself certified to ISO 14001:2015.

SMART Technologies Corporation ("SMART US") is a corporation incorporated under the laws of the State of Delaware on October 18, 1995, with sales offices in Arlington, VA and New York, NY. SMART US is a wholly-owned subsidiary of SMART Canada and is directly controlled by SMART Canada.

SMART US and SMART Canada are "affiliates" in accordance with the Bid terms and all sales in the United States are fulfilled by SMART US. Accordingly, SMART US is the vendor/bidder under this Bid.

Yours truly,

SMART Technologies ULC

Subject: Letter of Authorization

ViewSonic Corporation ("ViewSonic") is a worldwide provider of Visual Display Technology™ products under the brand name of ViewSonic®. ViewSonic does not have a reseller authorization program, as its products are generally available through distribution on the open market to all resellers.

This letter is to confirm that Information Transport Solutions, Inc., with offices located at 335 Jeanette Barrett Industrial Blvd., Wetumpka, AL 36092 ("ITS"), is an authorized ViewSonic reseller under ViewSonic's Finch Club™ Reseller Partner Program. In order to become a member of this program, the reseller must submit documentation demonstrating to ViewSonic's satisfaction that they are licensed to conduct business in a particular state or province and maintain good financial and partnership standings. The contract between the parties entitles ITS access to special programs, pricing and benefits, including marketing, technical and warranty support offered by ViewSonic.

By providing this letter, ViewSonic does not intend to be legally bound by the terms and conditions of any Request for Proposal, Request for Quotation, Contract, or any other legally binding document.

Any questions relating to ViewSonic's products should be directed to Ben Pearson at (904) 568-9151 or Ben.Pearson@Viewsonic.com.

Watumpka, AL 36092

REF: Letter/State/Contract/RFP Number Bld #: ACCS-2019-01

To Whom It May Concern,

NetApp, Inc. ("NetApp") affirms that ITS-Networks ("Partner") is an authorized reseller of NetApp products and services in the SLED market.

NetApp shall provide to Partner the products and services ("Products") listed in NetApp's North America Price List for the above-referenced Bld #: ACCS-2019-01 ("Contract") beginning on the date wherein NetApp Products are added to the Contract and for the duration of the Contract and any extensions thereof, subject to the conditions below.

Partner must at all times be a NetApp reseller in good standing. If for any reason Partner contract with NetApp lapses or is terminated, the authorization under this letter shall immediately be revoked and Partner shall work to remove its listing of NetApp products and services from the Contract.

Nothing in this letter shall be construed as imposing additional terms and conditions upon NetApp in relation to Partner's sales of Products under the Contract; all such sales shall be governed by the terms and conditions of the reseller agreement in place between NetApp and Partner at the time of sale.

NetApp Products proposed for inclusion on the Contract or any subsequent Contract modification are commercial-off-the-shelf ("COTS") products and services developed entirely at private expense; are of a type customarily used by the general public for purposes other than governmental purposes, and are sold, leased, or licensed in the course of normal business operations to the general public. Partner shall not extend to Contract end-users any rights to NetApp's intellectual property beyond those expressly authorized by NetApp.

NetApp will provide Standard Pricing for Products made available for inclusion on the Contract. NetApp's Standard Pricing provides a small incremental discount to the pricing offered through NetApp's WSCA-NASPD pricing (exclusive of applicable fees). Please contact your distributor for more details on Standard Pricing. Note that Registered Pricing may be available for selected sales opportunities completed under the Contract following award provided that all the Registration criteria are met for the opportunity. NetApp reserves the right to cancel this letter of authority, either in whole or in part, upon thirty (30) days written notice.

Leviton Authorized Network Installer Certification

Information Transport Solutions - Wetumpka, AL

I have read Leviton's Certification Program selection criteria and have successfully completed the program's training requirements. Therefore, Information Transport Solutions is hereby certified as a Leviton Authorized Network Installer. Installations performed by Information Transport Solutions that are compliant with TIA/EIA and/or ISO requirements are eligible to receive Leviton Network Solutions Extended Product and Performance System Limited Warranties.

Information Transport Solutions has agreed to conform to all Leviton specified TIA/EIA and/or ISO compliant installation practices in force at the time of installation. In addition, Information Transport Solutions agrees to install Leviton approved products and category compliant cabling in compliance with program policies and related industry standards.

TIA/EIA and/or ISO standards compliant links and channels are covered under Leviton Network Solutions Extended Product and Performance Warranties when installed by Authorized Network Installers. Leviton approved cable services/funders must be used to obtain system warranties.

Information Transport Solutions agrees to adhere to the Terms & Conditions of Leviton Network Solutions certified contractor program, and the Terms & Conditions of the program's Extended Product and Performance System Limited Warranties for the duration of their participation in the program. In no event shall Leviton be liable for special, incidental, consequential or punitive damages (regardless of the form of action, whether in contract or in tort, including negligence, gross negligence and strict liability) including, without limitation, net profits, loss of revenue, loss of data, technology, rights or services, interruption of business, cost of procurement of substitute products or other economic damages arising from the failure of a system installed by a Leviton certified contractor.

❖ Monitor

- Server – Disk, memory, CPU utilization
 - Monitor through SNMP and WMI the current utilization percentages for CPU, memory and disk resources
- Desktop – Windows updates and anti-virus scans
 - Monitors status of Windows updates (success and fails) and status of anti-virus scans
- Network – Up/Down state of network devices and utilization
 - Pings each network device (switches, routers, voice gateways) to determine connectivity status and graph the bandwidth being utilized on the interfaces.
- Status notifications and monthly reports
 - Customer is notified via email of issues found on servers, desktops, and their network infrastructure.
 - Reports are generated monthly detailing alerts generated and closed, server and desktop issues found, bandwidth usage and network and server availability for the month.
 - DOES NOT INCLUDE ON-SITE DISPATCH FOR PROBLEM RESOLUTION

❖ Maintain

- Servers – O/S and application updates, security patches
 - Schedule and perform updates to Windows 2003 & 2008 server O/S, apply hotfixes and security patches
 - Schedule and perform updates to Windows Exchange Server 2003 and 2007, SQL 2005 and 2007 server software, apply hotfixes and security patches.
- Application support – STI, Accelerated Reader, and other approved software
 - Apply software updates to approved software on specific servers
 - Perform Exchange mailbox maintenance (build OLS, build aliases, password changes)
- Desktops – Windows updates and anti-virus scans
 - Perform remote remediation of problems found in status reports from the results of the anti-virus scans and Windows update process
- Network devices – Configuration changes and backup, code upgrades to the IOS on switches, routers and voice gateways
 - Perform nightly pulls of configurations and stores them for backup.
 - When security updates to IOS come available then downtime is scheduled with the customer to apply and reboot devices. When bugs are identified in the IOS that affect the customer then maintenance windows are scheduled to upgrade the IOS versions.
 - DOES NOT INCLUDE ON-SITE DISPATCH FOR PROBLEM RESOLUTION

❖ Dispatch

- When issues are discovered that cannot be alleviated via remote access then depending on severity and overall enterprise impact then an on-site dispatch is scheduled with the customer to resolve the issue involving the server, desktop or network device.
- Warranty repair of installed equipment or hardware repair work using customer supplied parts (hard drives, memory, etc).
