INTRODUCTION

1.1 Purpose of This Request for Bid

The Alabama Community College System (ACCS) is partnering with other Alabama Higher Education entities to request bids from technology equipment manufacturers and/or dealers on behalf of the System institutions and other authorized entities. The ACCS is comprised of the twenty-three (23) community colleges, two (2) technical colleges, one (1) military institution, and the Alabama Technology Network (Appendix A). Any institutions or programs that may be acquired or added to the ACCS during the life of this contract will automatically be added as entities eligible to procure products from the contract. Any four-year institution or K-12 district/system which wishes to join during the life of this contract may be added as an eligible entity. Additionally, the public K-12, two, and four-year institutions listed in Appendix A are also eligible to purchase from this contract.

Each entity will generate its own purchase orders, payments, etc., and delivery must be made according to the instructions on the purchase order. The intent of this request is to establish an annual contract for technology related equipment to be purchased on an as needed basis for the listed entities as needs arise during the contract period.

The purpose of this Request for Bid (RFB) is to establish a contract on a competitive basis with qualified technology equipment suppliers, distributors, and/or manufacturers who shall directly supply technology equipment and value-added professional services, including software and peripherals, and maintenance and support services to qualified purchasers. Peripheral and computer component manufacturers are excluded from this procurement.

This RFB is not designed to meet the E-Rate requirements specified by the Universal Service Administrative Company. The Alabama Community College System shall not negotiate on behalf of any party with a Letter of Agency. The System shall not certify an FCC Form 470, nor receive and evaluate bids, nor negotiate with service providers of E-Rate products and services.

The Alabama Community College System reserves the right to negotiate with vendors for a product or product line that was not available at the time of the Request for Bid.

The thrust of the RFB is to obtain greater volume price discounts by combining the volume of purchases from participating entities within the State of Alabama with administrative savings that will result from the maintenance of a single, comprehensive contract for each selected vendor.

This RFB is prepared under the authority of ACT No. 2003-392.

This procurement will result in a multiple source award.

Term – Bid awards issued under this Request for Bids shall be for an initial period of one year to renew automatically for one additional year if not canceled by The System prior to the one-year anniversary date of the award letter. The System shall have the option to extend awards for an additional (third) year by giving notice of such extension prior to the two-year anniversary of the award letter.

Read, Agreed, and Understood. Pinnacle NetworX is thankful for the opportunity to partner with the Alabama College System. We presently work with universities, K-12 school systems, the State of Alabama, the State Department of Education, municipal and county governments throughout the state.

Summary Scope of Work

The selected vendor(s) shall accept purchase orders from and deliver technology equipment, including general-purpose software and peripherals, to authorized procuring entities. Vendors are required to provide maintenance services on equipment that is purchased. Optionally, vendors may provide installation, training and support services directly related to the efficient use or operation of the purchased equipment.
