The Role of the GOEWT in Providing Technical Assistance

WIOA and CTE State Leadership and Administration Set-Asides

(1) The Carl D. Perkins Career and Technical Education Act (Perkins V) and the Workforce Innovation and Opportunity Act (WIOA) provide federal support for state education and workforce activities. Perkins V (reauthorized in 2018) and WIOA (reauthorized in 2014) were aligned by design to create an education-to-workforce system linking students to in-demand career pathways. Perkins provides funding to improve both secondary and postsecondary career and technical education (CTE) programs. WIOA funds the public workforce investment system for youth and adults who need workforce training and employment.

(2) The Carl D. Perkins Career and Technical Education (Perkins V) Act and the Workforce Innovation and Opportunity Act (WIOA) provide for state leadership activities to align secondary, postsecondary, and adult workforce development programs to create career in-demand pathways. Perkins V provides for a 10 percent state leadership set-aside, which does not require a match, and a 5-percent state administration set-aside, which requires a dollar-for-dollar non-federal state match.

(3) WIOA Title I (the adult, youth, and dislocated worker programs) provides for a 15-percent Governor’s state leadership set-aside for statewide workforce investment activities, which does not require a state match. Five percent of the Governor’s set-aside may be used for administration and 10 percent may be used for statewide workforce investment activities.

(4) WIOA Title II (programs funded under the Adult Education and Family Literacy Act) provides for a 12.5 percent state leadership set-aside. The WIOA Title II set-aside requires a 25 percent non-federal state match (the state match may be cash or in-kind contribution).

(5) The required and permissible use of state leadership and administrative funds under CTE and WIOA Title I and II are directly aligned to the goals, objectives, and strategies identified by the GOEWT.
